Delivery errors (address errors)	[ ]

Monthly limit (44 CV submissions per person per calendar month, all profiles)

Limit	Used this month	Reserved for scheduled sends	Remaining
44	[ ]	[ ]	[ ]

Note: The market section is a separate page after this table, if prepared. All numbers are counted from the journal at the snapshot date. A reply is counted in the month it was received, and the status column shows the status at the date of the last check. Drafts and scheduled messages are not counted as sent. A thank-you message is not an employer result. Where there is no reply, the text “No response received” is used; where the employer gave no reason, “Reason not provided” is used.
